Technical Skills

- JavaScript, TypeScript
- Node.js
- React.js, Express.js
- MongoDB, Firebase
- RestAPIs
- Jest
- Git, NPM

Languages

- Fluent in Korean and English
- Beginner in French

Projects

Take Care

<https://takecare.netlify.app>

ReactJS, NodeJS, ExpressJS, MongoDB, RestAPIs , Styled-Component

- developed a personal healthcare record web app that allows users to easily manage and track their medication use and lab results.
- enabled users to log in with email accounts using **OAuth** and **Bcrypt** and create, edit or delete their records by **CRUD** operations
- utilizes REST APIs from MedlinePlus and Mediastack to retrieve data related to medication use and health status for the user

Stay On Time

<https://stay-on-time.onrender.com>

ReactJS, NodeJS, ExpressJS, MongoDB, RestAPIs , Styled-Component

- developed a fully featured e-commerce website, honing my skills in utilizing database to effectively manage user activities such as cart update
- originally built as a group project during a diploma program. gained extensive experience in **git** version control while working on this team project
- recently revamped with a new design and concept, with refactoring for improved functionality

Education

○ 2022

Full Stack Web Development Diploma, University of Concordia, Canada

learned modern web development technologies including React.js, Node.js, and API usage, CRUD operations on MongoDB databases, team project using Git/GitHub

○ 2021

Full Stack online open course Certificate, University of Helsinki, Finland

courses included React, Redux, Node.js, MongoDB, GraphQL and TypeScript. The main focus was building single page applications with ReactJS that use REST APIs built with Node.js.

○ 2005

Bachelor of Science in Pharmacy, Seoul National University, South Korea

Work experience

Hospital and Community Pharmacist

- My background in healthcare has taught me the importance of problem-solving, attention to detail, communication skills, and the ability to work under pressure

Arum pharmacy, South Korea

2019 - 2020
